PANEF

Lub-A-Spray Dry Graphite Lubricant. 6.5 grams, 12 to a box.

645-0300	PAN-L300	**$28.00/Dozen**

TRI-FLOW

Long Lasting Lubrication with extremely low viscosity and surface tension,TRI-FLOW'S exceptional lubrication virtually eliminates friction - friction coefficient 0.08. With TRI-FLOW the need for reapplication is reduced by up to 90%.

Protects

TRI-FLOW Combines Teflon with complex carrying agents, to form highly durable film, and virtually eliminates wear on moving parts. Falex load test - max load 3700lbs, temperature range -53 C - + 246 C.

Cleans

Dirt, dust, sand and other abrasive matter are dispersed by the bearing action of the Teflon particles. Surfaces are cleaned and kept clean. Repels moisture.

Penetrates

TRI-FLOW'S special non-acidic solvents break down carbon deposits, hardened grease, sludge and grimy film and penetrates even into the most inaccessible areas.

Prevents Corrosion

Displaces moisture, preventing the formation of ice, rust and other corrosives. TRI-FLOW dissolves the crystalline structure caused by moisture, salt and alkalies. Acid-free, it releases seized parts.

Order #	Item #	Catalog Price
005-0095	**# 46**	**$25.90**

Capping Press/Blocks

CAP-5. CapSaver™ Press

A Revolutionaly Concept for Servicing Interchangeable Cores.

A-1's CapSaver™ Press uses brass strips to punch all caps as your seat them.
Never purchase or place another cap.

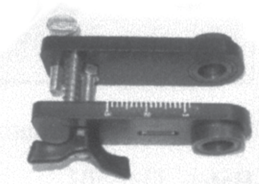

The most time consuming task of capping cores is placing the small caps onto each chamber of the core. Using CapSaver strips, the press actually punches and forms the caps as it seats them into the core. Each strip is designed to cap four 6 or 7 pin cores, sold in packs of 50.

Order #	Item #	Description	Catalog Price
005-0300	CAP-5	CapSaver Press	**$1395.00**
005-0305	CS-50	Capsaver Strips	**51.00**/50pk

MADE IN USA

Installation Innovation!

BUL-1

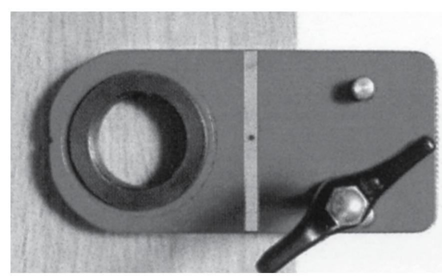

Cabinet Lock Installation Jigs

Manufactured of Aircraft Grade Aluminum Alloy, and steel bushings, this jig is designed to install two styles of cabinet locks.

- Cam Locks using 7/8" cross-bore
- Interchangeable Core Locks using 1-1/4" cross-bore
- Both sides of this jig are identical and include 1/8" graduated backset markings. The built-in level provides for easy and accurate setup.

Order #	Item #	Price
005-0140	BUL-1	**$269.90**

BUL-2. BULLS EYE

Bulls Eye Installation Tools for Cylindrical Locksets.

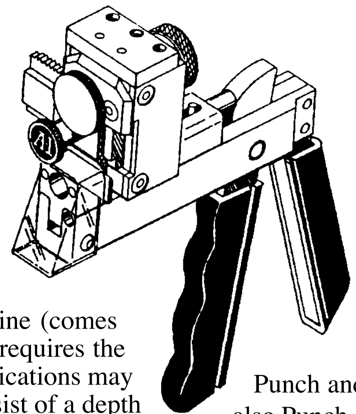

Use this tool when locating and drilling crossbores and latch holes when installing cylindrical locks. economically designed for locksmiths, this new tool is equipped to drill 1-1/2" and 2-1/8" cross bores and includes an automatic backset adjustment that requires no additional tools.

Order #	Item #	Catalog Price
005-0610	#BUL-2	**$425.60**

PAK-A-PUNCH™

PAK-3 Automotive Interchangeable Punch

Economy and Versatility make this the Punch you've been waiting for.

Versatile automotive punch offers interchangeable punches & dies so you can punch various angles of cut with one machine (comes equipped with the standard 90˚ set). PAK-3 requires the Quickchange Kits of your choice (some applications may require accessory punches & dies). Kits consist of a depth knob and one or more vises for punching specific keyblanks. Model 3 requires your choice of various Quickchange Kits for auto blanks (Sold separately).

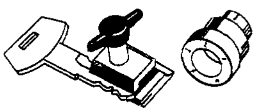

Order #	Item #	Catalog Price
005-0250	PAK-3T	**$758.00**

A-1

PAK-3S For Schlage

This machine is virtually the same as a PAK-3 with the exception that it is Fully equipped with the appropriate Depth Knob, Vise Assembly, and a Special Punch and Die for Code Cutting Schlage Keyways. No other attachments are necessary for Punching Schlage. Since the Punch and Die are Interchangeable, those wishing to also Punch Automotive Keys with this machine may do so by purchasing the necessary Quickchange Kits and the Appropriate Punches and Dies.

Order #	Item #	Catalog Price
005-0211	PAK-3S	**$900.00**

PAK-A-PUNCH™ Quickchange Kit for PAK-3

Quickchange Kit includes required depth knob and vise assembly. 90˚ punch is included with machine. 90-T is optional and can be purchased separately.

Quickchange Kit

005-0260	PAK-F1	**$179.00**

Auto	Keyblank	Code Series	Kit	Years	Required Punch
Ford	H54, H55, H56, H60, H62	10 cut	PAK-F1	'84$^{1}/_{2}$+	90˚

PS2. Ignition Service Kit for GM 10-cut

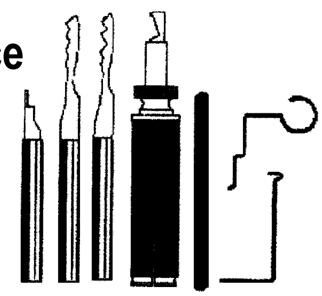

With this set of tools the new GM ignitions may be readily picked & decoded.

Unlike Others, No Drilling Required. This set of tools will allow you to pick & decode GM 10-cut ignitions in minutes. Simply insert the special Tension Tool to apply sidebar pressure then pick the lock with your choice of four especially designed rocker picks. Once the lock is picked use the cylinder release tool to release the ignition from the column. After removal, the plug can be decoded quickly and effortlessly using the depth gauge supplied.

Includes ALL Tools Required:
Tension Tools, including style "B", 4 Rocker Picks withLeather Case, Depth Gauge, Cylinder Release Tool, and Service Manual by Carl Stramer.

Order #	Item #	Catalog Price
005-0002	PS2	**$295.00**

PS3. Service Kit for GM 10-cut in dash

The PS3 allows locksmiths to pick and decode GM 10-cut in dash ignitions in minutes. Using specialized tools, the bezel adn the face cap are safely removed. A 3/32 access hole is drilled into the lock face (bit and extension included). Specialized tension tools, rocker picks, and release tools are then used to pick, release and then decode the ignition. The original face cap and bezel remain intact for reassembly. Without this service kit, the only alternative to servicing these locks involves disassembly of the dash.

Order #	Item #	Price
005-0003	PS 3	**$295.00**

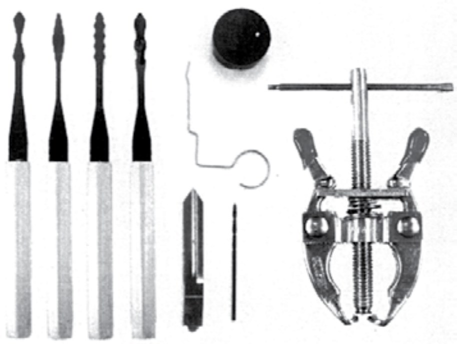

PS100. Domestic Killer Automotive Pick Sets

Includes all tools necessary for picking GM 10 cut (column mounted and in-dash models), late model Chrysler & Ford 8-cut. Provides Turn-key systems.

Order #	Item #	Price
005-0100	PS100	**$879.00**

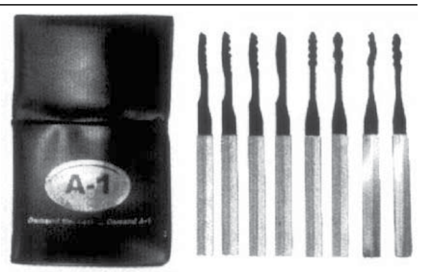

PS-4. Picking System for Ford 8-Cut

Similar to A-1's automotive picks for General Motors, these tools are designed to professionally pick Ford ignitions without damaging the locks or bezel. Includes a unique bezel removal tool, a jig with .070 drill bit for drilling the pilot hole, a specialized tension tool for disabling the side bar, and four rocker picks.

Order #	Item #	Price
005-0400	PS 4	**$249.00**

#47. Automotive Rocker Pick Sets

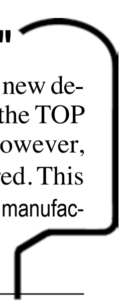

8 of A-1's favorite rocker picks. Use for domestic & foreign automotive applications.

Order #	Item #	Catalog Price
005-0047	**# 47**	**$99.00**

Car Opening Tools

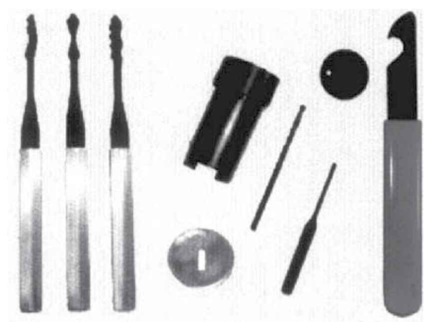

RPS12. Tension Tools, Style "B"

In recent months, General Motors has introduced a new design of the GM 10-cut ignition. This new design, the TOP HAT, can be picked with A-1's product #PS2, however, an accessory Tension Tool "B" (#PRS12) is required. This tool is available to all owners of the #PS2 (PS2's manufactured after November 20, 1995 include this tension tool).

005-0012	RPS 12 Style B	**$13.50**

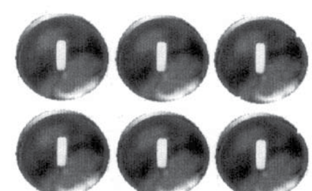

PS5. Chrysler Pick Sets

Includes all tools necessary for picking late model Chrysler. Use tools included to remove facecap, drill sidebar pilot, insert tension tool, pick, install new facecap. Also includes 6 replacement facecaps.

Order #	Item #	Price
005-1655	PS5	**$275.00**

#54. Chrysler Replacement Face Caps

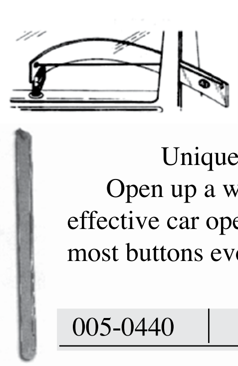

Replacement facecaps for late model Chrysler. Each package contains 10 facecaps.

Order #	Item #	Price
005-0054	**# 54**	**$37.90/pk**

ESP. CJ-34 Multi-Tools

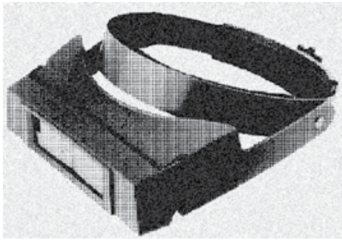

A unique tool with hundreds of different uses. Pull small springs - especially on mortise locks or knob tension springs on Schlage K locks or any lock where there's no room to use your fingers or pliers. Great to take tru-arc rings off of cylinders and taking the caps off key-in-knob cylinders and rim cylinders. Other uses include depressing the pin to remove Corbin and Russwin knobs and taking the wedge out of Schlage A80 cylinder locks. Particularly useful with the GMRT-88 Steering Column Compression Tool and GMRR-88 Retaining Ring tool.

As you work with the Multi-Tool, you'll discover uses we never even though about. Developed by a professional locksmith. The handiest tool to come down the road in years.

LOCKSMITH TOOLS

HPC Car Opening Tools
(All have complete instructions).

CO-10. The Slim Jim

Tool does not enter inside car. Opens door by "feel" not sight. For GM, Ford & Chrysler cars. Clock-spring steel, hand finished.

360-0057	HPC CO-10	**$17.20**

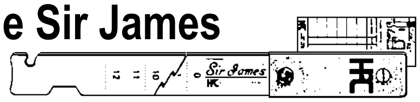

CO-11. Super Jim

Opens most GM, Ford & AMC car doors. Chrysler products after '74, have locking mechanism protected by a sheet metal, box-shaped lock cylinder clip and cannot be opened with this tool. Made wider and thicker than CO-10, and is bright nickel plated.

360-0058	HPC CO-11	**$17.90**

CO-18. The Sir James

Deluxe version of the Super-Jim with permanently stamped depth grid on blade for marking steps. Leather covered handle secures pad of paper to record opening information by vehicle, model and year.

360-0059	HPC CO-18	**$35.00**

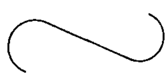

Peg Leg Jim

1980 GM with cover over cylinder & linkage, works on older cars also.

360-0060	HPC CO-20	**$26.90**

CO-22. The Jim Dandy

GM models other than "X", great on most Japanese cars & trucks.

360-0062	HPC CO-22	**$24.90**

CO-24. The Big Jim

Specialty is "X" type GMs, but opens almost everything Slim Jim will.

360-0063	HPC CO-24	**$21.90**

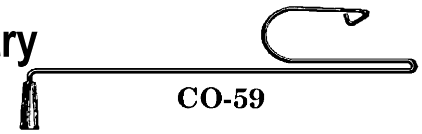

CO-52 The Super "J"

Opens almost any auto with vertical linkage. Used simultaneously with the Super Jim (CO-11) or Slim Jim (CO-10). Comes with graphic, understandable instructions. Most thru handle Fords.

360-1206	HPC- CO-52	**$31.60**

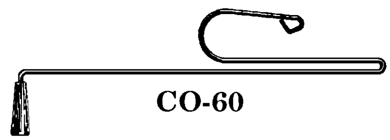

Beretta Entry Tool CO-59

CO-59

Designed to unlock either door of the 1988 Chevrolet Beretta in less than 60 seconds with no damage to any part of the auto.

360-1214	(U) CO-59	**$37.90**

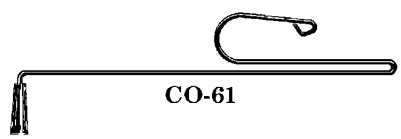

CO-60

Caddy Killer™ CO-60

Operates like CO-59, but has a few dimensional modifications. Width of arc has been decreased to accomodate cars with narrower door panels, length of opening arm has been increased in proportion to amount of window clearance inside window cavity. Works on Sedan DeVille, Coupe DeVille & Eldorado, also Buick Riviera & Olds Toronado.

360-1260	HPC- CO-60	**$35.50**

CO-61 Long Killer

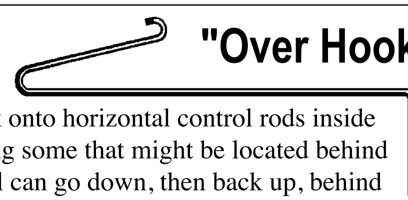

CO-61

Longest possible.
Based on CO-59 & CO-60. 1.5" longer. Opens '88 & '89 Buick Regal, Pontiac Grand Prix, Chevy Astro, etc....

360-1261	HPC- CO-61	**$35.50**

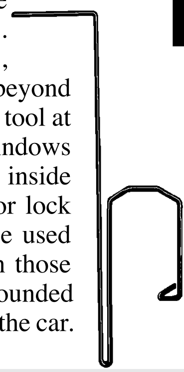

CO-68. "Over Hook"

Designed to hook onto horizontal control rods inside car door, including some that might be located behind window, etc. Tool can go down, then back up, behind window to hook onto a control rod. Then twisted to make it bind the rod. While binding rod, it is pivoted to move the control rod. Contact point for some horizontal control rods may be where rod is bent so that its at an angle, not horizontal. Primarily used on GM cars, can also be used on other vehicles, including several foreign cars.

Order #	Item #	Price
360-1273	HPC CO-68	**$30.20**

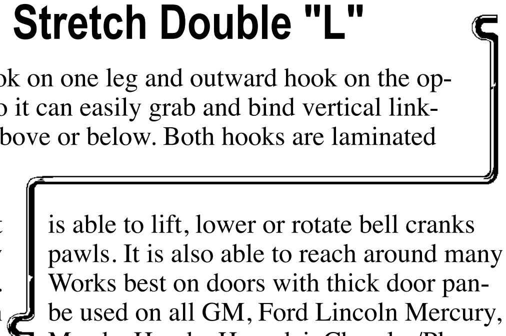

CO-70. "Super Killer"

Extra length and greater strength, can be used to open a wide variety of vehicles. (Almost all of the vehicles that the CO-59, 60 & 61 can open plus several that are beyond the reach of these tools.) By inserting this tool at an angle, it can get under the deepest windows and then go over the highest and widest inside car door padding to reach the inside door lock indicators. Strength is such that it can be used to push, pull or lift lock indicators, even those operated by power door locks. Smooth, rounded surfaces eliminates any risk of scratching the car. Opens many vehicles, especially GMs.

Order #	Item #	Price
360-1274	HPC CO-70	**$36.50**

CO-71. Stretch Double "L"

Upward hook on one leg and outward hook on the opposite leg so it can easily grab and bind vertical linkages from above or below. Both hooks are laminated with a slip resistant coating. It is able to lift, lower or rotate bell cranks and lazy pawls. It is also able to reach around many shields. Works best on doors with thick door panels. It can be used on all GM, Ford Lincoln Mercury, Mitsubishi, Mazda, Honda, Hyundai, Chrysler/Plymouth, Toyota, Nissan, BMW, Jaguar and many more!

360-1371	HPC CO-71	**$27.50**

CO-72. Short Double "L"

Upward hook on one leg and outward hook on the opposite leg so it can easily grab and bind vertical linkages from above or below. Both hooks laminated with a slip resistant coating. Able to lift, lower or rotate bell cranks and lazy pawls. Also able to reach around many shields. Works best on doors with narrow door panels. Can be used on all GM, Ford Lincoln Mercury, Mitsubishi, Mazda, Honda, Hyundai, Chrysler/Plymouth, Toyota, Nissan, BMW, Jaguar and more!

360-1272	HPC CO-72	**$26.00**

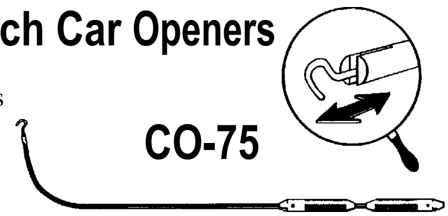

CO-73. Lasso™

The Lasso™ tool is for vehicle entry when the lock button is visible. It is made of high quality "poly-flexo" material with a durable string. The tool allows you to wrap the string around the lock button and lift up to unlock the door.

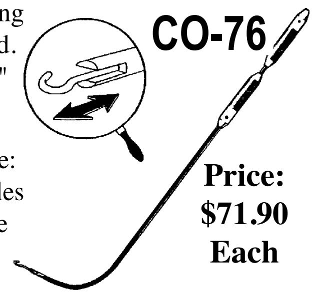

360-1276	HPC CO-73	**$16.50**

Clutch Car Openers

CO-75

Unlike any others on market. When handle of tool is pulled apart, hook at end of tool is pulled inward, causing tool to grip or bind linkage rod. Helps simplify "in-the-door" method of vehicle entry.

CO-76

Two different styles are available: The Vertical Clutch™ for vehicles with vertical linkage and the Horizontal Clutch™ for vehicles with horizontal linkage.

Price: $71.90 Each

Order #	Item #	Description
360-1275	HPC CO-75	Horizontal Clutch
360-1376	HPC CO-76	Vertical Clutch

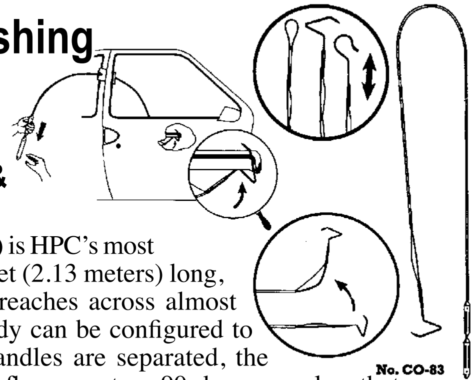

CO-79. Instant Explorer Tool

Opens a wide variety of vehicles, but was specially designed to open Ford Explorers in seconds! The CO-79 easily slides under the handle and grips the vertical rod under the button. Then, with a slight push on the foam handle the button pops up. Tool is a must for locksmiths in need of quick entry into the most popular sport-utility vehicles on the road today.

LOCKSMITH TOOLS

CO-83. The Fishing Pole

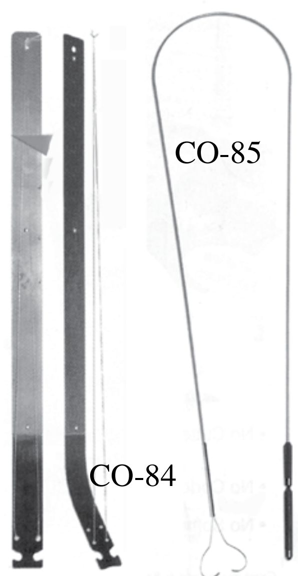

Shift and Shape! Twist and Turn! Flip & Flex! Grip & Grab!

The Fishing Pole (CO-83) is HPC's most flexible tool ever. At 7 feet (2.13 meters) long, the Fishing Pole easily reaches across almost any car. Its bendable body can be configured to any shape. When the handles are separated, the working end curves and flexes up to a 90-degree angle - that you can twist in any direction. Comes with three screw on tips including a bendable Posi-Form Wire Loop, a Super-Pull Catch, and a large Sure-Grip Hook. If you want to wiggle and worm your way through quicker car opening, us a **Fishing Pole!**

Order #	Item #	Price
360-1283	HPC CO-83	**$129.00**

CO-84 Flexi-Jim

Helps you to maneuver around shields and window rails allowing you to reach the right vertical rods and unlock your door. The spring steel laminated body holds stiff while the super flexible end bends into position as you pull up on he cord. Switching the position of the cord adds a gentle twist to the tool for hard to reach rods.

Order #	Item #	Cat. Price
360-0065	CO-84	**$59.90**

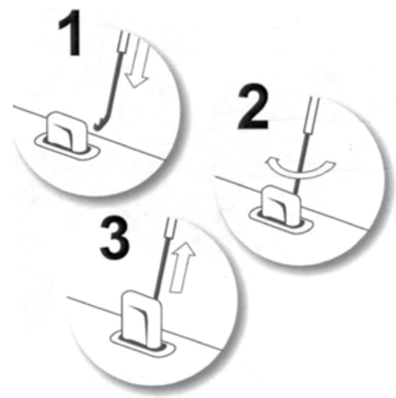

CO-85 Twin Hooks

Reaching across vehicles and grabbing door handles has never been easier. The new HPC Twin Hooks has a double-hook end that opens and closes with a simple push and pull of the tool handle. The two hooks overlap each other as they close giving twice the strength and a solid hold. Twin Hooks securely grabs onto door handles from as far as 7 feet away.

PW-100. Power Wedge

An advanced vehicle opening aid for security professionals.

A revolutionary auto entry device designed to aid in opening even the most difficult vehicles. A spring loaded compound lever that safely spreads a vehicle door away from the body allowing for the easy entry of a "Through the Car" opening tool. The Power Wedge slides into the opening between the vehicle's door and frame at the top of the door. Rubber coated tips protect the vehicle, and the adjustment knob allows you to control the width of the door opening. Simply turn knob clockwise and watch as the door slowly opens giving you room to use a car opening tool. Made from 14 gauge steel.

Just slide it in, crank it open, and insert your tool!

Order #	Item #	Price
360-0305	HPC PW-100	**$99.00**

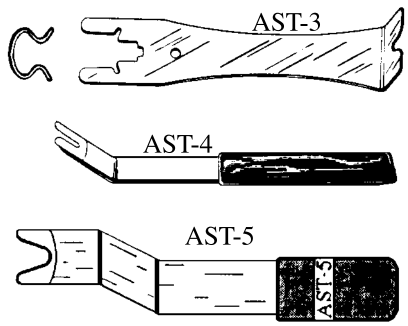

AW-99.
The Air Wedge

Unlike anything else on the market. The Air Wedge slides between the vehicle door and the weather stripping on the door frame. Then the pump is squeezed, inflating the Air Wedge and separating the vehicle door from the frame. This provides more than ample room to insert a car opening tool. The Air Wedge is made of a sturdy vinyl and equipped with a release valve.

Books & Manuals

Car Opening Authority

Opening information on over 650 vehicles all in just one binder.

A multifaceted user-friendly manual that serves not only as a reference book, but also as an educational aid and opening index. It clearly depicts and explains all of the different techniques of the 13 styles of car opening. It shows you how to open virtually every vehicle for the past 15 years, including ALL of the current cars, vans, and SUV's found in the USA and Canada, as well as many from around the world.

Concise, compact, fully illustrated and easily updatable.

For the beginner, it will show you that one or more of the 13 opening methods can open many vehicles. Once you learn how to perform each of these opening methods, you will learn how to identify which techniques to apply to which vehicles.

For the experienced car opening professional, who knows the value of space in a work vehicle, this is the ideal book.

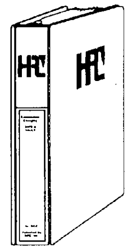

Models Index. Lists more than 650 vehicle models by year for the past 15 years. This spreadsheet formatted index points you to one or more opening techniques for each vehicle and alerts you to any vehicle-specific information.

Opening Methods Pages. The 13 Opening Styles and techniques use precise illustrations to take you through all of the different opening methods. Each technique gives a list of recommended and optional tools, as well as any style-specific precautions.

Tools Page. This section gives a pictorial listing and description of ALL of HPC's car opening tools.

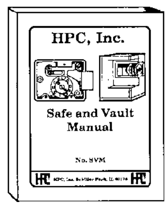

Plus. In an effort to keep you current with the latest car opening issues, sections on Side Impact Airbags and Ignition Anti-Theft Systems, as well as a list of the car manufacturers' road side assistance telephone numbers are included.

Safe Combination Changing

HPC-SCC. A collection of original direction sheets that explain how to operate and change combinations, written by the safe lock manufacturers. It contains 85 pages and hundreds of illustrations and diagrams. Combo changing info for Diebold, Eagle, HHM, S & G, Yale and York safe locks manufactured during the last 75 years. This book helps the user get the best results in the shortest possible time by using the proper procedures.

Safe & Vault Manuals

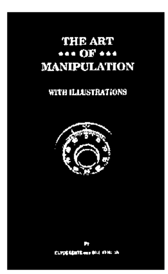

HPC-SVM. The "Safe Man's Bible" Whether you are new to safe work or just interested in broadening your knowledge of safe locks, you will find this book contains valuable information covering a wide variety of safe lock topics. It contains over 250 illustrations, 1000 factory try-out combinations and a section on original factory methods of safe & vault combination changing.

This book includes: Hand Changing; Key Changing; Drilling Locations; Lock Servicing; Internal Drawings; and Time Lock Operation.

The Art of Manipulation

HPC-TOAM-2.

Open Combination Locks Without Drilling, Burning, or Forcing.

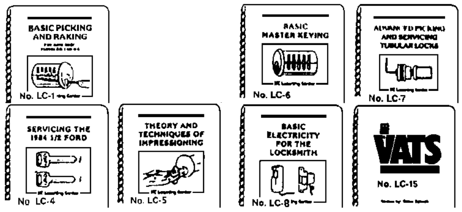

Written for locksmiths and safe professionals in order to improve their technique and knowledge of opening and servicing safes. This manual will familiarize you with why manipulation is possible and how it is accomplished.
Illustrates the step-by-step procedures needed to manipulate lever type fence locks. Also explains the methods used in the rotary fence gear driven, rotary fence spring loaded, straight in tailpiece, bottom drop, and offset gear driven type locks.

Sale restricted to established Safe Men and Locksmiths.

LOCKSMITH TOOLS

Books & Manuals

Learning Center Library Reference Collection

A series of technical manuals designed with the security professional in mind. All manuals are written clearly and feature meticulously detailed exploded view drawings. The spiral binding allow the manual to be opened flat, compliment the convenient 6" x 9" format.

LC-1. BASIC PICKING.
Describes in detail the theories and techniques for picking standard pin and wafer tumbler locks. All the necessary tools - such as picks and tension wrenches - are listed and fully illustrated for convenient cross-reference.

LC-5. BASIC IMPRESSIONING
Explains the essential theories and methods for making a key by impressioning. The proper technique for blank preparation (spacing), obtaining marks and the ability to recognize marks are covered in detail.

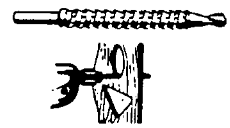

LC-6. BASIC MASTER KEYING
Introduces the locksmith to the theories and principles associated with master keying. Includes such techniques and 1 and 2 Step Progression, Incidental Master Keys, etc. Fully explained and illustrated.

LC-8. BASIC ELECTRICITY for LOCKSMITHS
Describes fundamental electrical theory. Describes procedures which are necessary to determine the compatibility of electrical strikes, transformers, etc., through the use of Ohm's law. Electrical components and their corresponding symbols, as they are represented in schematic diagrams, are also discussed.

HPC

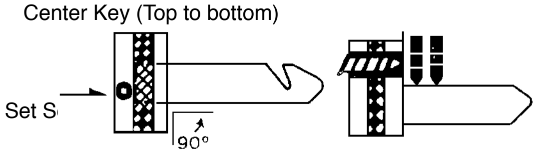

HPC Cylinder Drill Jigs

Cylinder Drill Jig & Drill Bit for a flat face cylinder.

360-0047	HPC-CDJ-1	**$34.50**

HPC-CDJ-2. Cylinder Drill Jig & Drill Bit for recessed Tulip design types.

360-0048	HPC-CDJ-2	**$34.50**

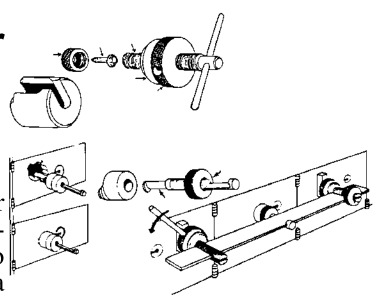

Cylinder Drilling Jig

for Removable Core Locks

Ingenius device is absolutely essential for professional locksmiths who service removable core locks.

360-1430	HPC CDJ-3	**$53.00**

Nose and Door Pullers for Safe Deposit Boxes

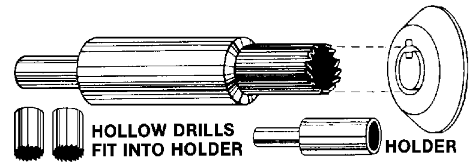

Heavy wrought & bar steel set expertly machined & finished to effectively pull out a lock core. Turn screw into center of core's keyway to act as an anchor; slip spacer block into place & tighten by turning knurled knob slowly clockwise until entire core is drawn out. Use guard key & disengage bolt. If door does not open, then use DP-7B (shown below, DP-7B set includes the NP-4B set). Can also be used towards removing plug from a padlock.

360-0258	HPC-NP-4B	**$204.00**

DP-7B Door Puller Set.

Complete door puller set in position & ready to pull out the safe deposit box door. After lock core has been pulled and use of the guard key has not opened the door, then it is time to apply the Door Puller set. Set includes Nose Puller set NP-4B (above), all in a carrying case.

360-0120	HPC-DP-7B	**$572.50**

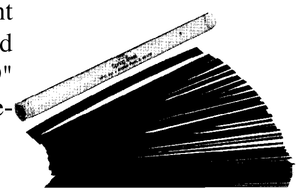

HPC Tubular Lock Drills

These hole saws destroy pins at the shear line. Available for standard & oversize keyways. Fit 1/4" electric drill. Saw life is approximately 3 openings. Not for locks with hardened pins or ball bearings in the keyway.

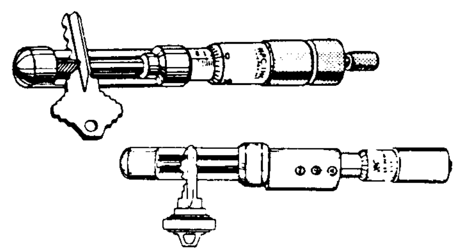

360-0009	**AG-1**	Std. Size tool + extra saw	**$72.00**
360-0010	**AG-2**	Oversize tool + extra saw	**72.00**
360-0155	**G-1**	Replacement saw for AG-1	**23.70**

Flat, Round Spring Steel Assortment

HPC-FRS-4. Contains different sizes of most popular flat and round blue steel. Cut into 9" lengths and is packaged in a see-thru round plastic container. 1/2 pound, over 50 pieces.

360-1350	HPC FRS-4	**$107.70**

KEY MICROMETERS

SKM-1. Measures Depths of Cuts on Flat Steel & Cylinder Keys. Straight Yoke Type. Supports cut key while checking the depths. Has a hardened anvil, thin enough to check all cylinder keys & flat steel keys with cuts as narrow as .030" in width. Encased in a genuine leather pouch.

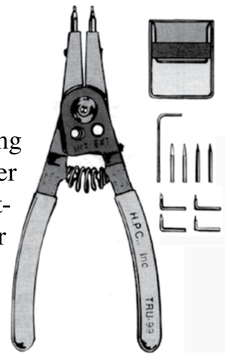

360-0346	SKM-1	**$329.00**

SKM-2D. "The Ultimate in Key Micrometers". New feature gives instant readings of depths of cuts, without eye strain. Friction thimble keeps user from over-tightening. Satin chrome plated, heavy duty for years of service.

360-0348	SKM-2D	**$686.00**

LOCKSMITH TOOLS

HPC Convertible Truarc Ring Pliers

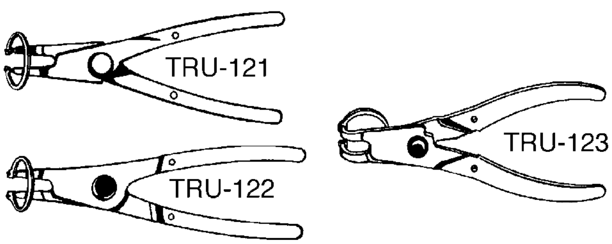

Can quickly & easily convert from ring compressor (external) to ring spreader (internal). Pliers also feature an adjustable stop that limits the jaw opening for both external and internal operation. They can be used on internal rings in sizes of 1/4" to 1" (6.5 to 26mm); and on external rings 1/8" to 1" (3 to 26mm). The TRU-99 comes with 5 pairs of interchangeable tips and a plastic case.

Tips included:

(2) Silver	.047" (1.2 mm)
(2) Black	.036" (0.9mm)
(2) Copper	.023" (0.6mm)
(2) Silver 90˚	(2) Black 90˚

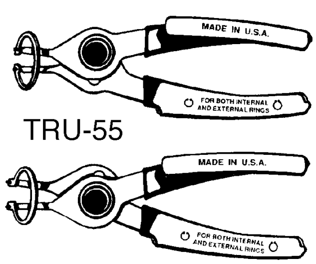

381-1234	HPC TRU-99	**$55.00**

Truarc Ring Pliers

Order #	Item #	Description	Price
360-0497	TRU-121	Ring Compressor	**$39.90**
360-0498	TRU-122	Ring Spreader	**39.90**

TRUARC RING PLIERS

HPC-TRU-55.
Two pivot centers - dual operation. No. 1 center is for compressing and No. 2 is for spreading action. Changeovers are made quickly and easily.

360-0496	(U) TRU-55	**$55.00**

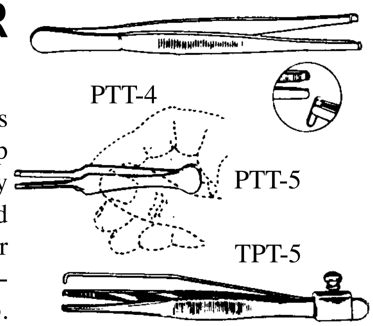

Truarc Ring Assortments

Contains 260 rings in 27 different styles and sizes of Truarc rings and retainers. Made of carbon spring steel for long lasting tension or compression. Helpful for servicing Arrow, Best, Corbin, Dexter, Ilco, Lockwood, National, Schlage and many more.

360-0500	TRU-275	**$195.00**

PIN TUMBLER Tweezers

Groove in tip provides firm, non-twisting grip on cylinder pins for easy loading. Tip is milled back so outside diameter of a standard .115 diameter pin extends past tip. Permits "butting" pin against end of plug follower when loading upper chambers, providing added control when holding tip or master pins of varying lengths. 6" long.

360-0302	PTT-4	**$22.50**

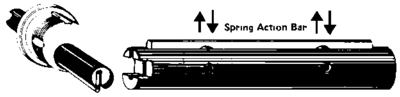

PTT-5. Compact Pin Tumbler Tweezer. 4" long . Milled tips firmly grip pins.

360-0303	PTT-5	**$19.00**

TPT-5. Improved Pin Tumbler Tweezer has a pin pushing attachment that makes it easier to load top pins into a cylinder.

360-0452	TPT-5	**$41.10**

Plug Followers

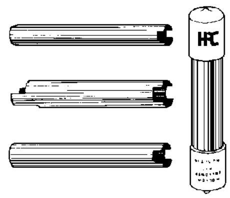

Adjustable Follower

Spring loaded action bar, fits all standard locks .495" to .600". Handles 90% of all locks.

360-0412	**HPC SUT-22**	**$45.00**

Hollow Brass Follower Set

This set contains three popular sizes of medium-hard, zinc plated, hollow brass followers. Each fits into the other and into their case. Compact.

360-0410	HPC-SUT-14	**$39.90**

HPC-SUT-0. .395" diameter:

360-0406	**$15.00**

HPC-SUT-1. .495" diameter:

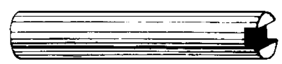

360-0407	**$19.00**

HPC-SUT-3. .500" diameter:

360-0408	**$19.00**

HPC-SUT-10. .550" diameter:

360-0409	**$17.00**

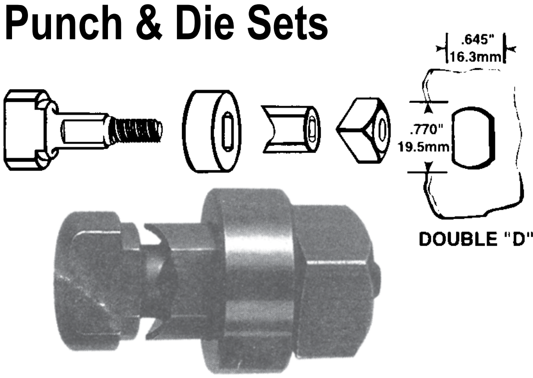

HPC-SUT-47. Set of four:
One each of SUT-0, SUT-1, SUT-3 & SUT-10. 4 followers. Will fit 99% of the rim or mortise cylinders and cylinder units currently in use.

360-0415	**HPC SUT-47**	**$61.00**

Adjustable Plug Holder

HPC-SUT-600

The universal adjustable plug vise, adjusts its own hole size from .350" to .600".

360-0417	**$113.00**

HPD-10:
Hockey Puck Defeaters

The Hockey Puck Defeater allows you to drill a precise shear line in the cylinder on hockey puck style padlocks without the drill bit walking around the face of the plug. It takes the guesswork out of finding the proper drill point!

Order #	Item #	Catalog Price
360-0630	HPD-10	**$198.00**

RPD-10:
Round Padlock Defeaters

The Round Padlock Defeater allows you to drill a precise shear line in the cylinder on circular type padlocks. This enables you to bypass the trap door without the drill bit walking around the face of the plug, taking the guesswork out of finding the proper drill point. Another unique feature allows you to effortlessly push the security nut through the trap door for easy removal of the cylinder. The leverage handle allows you to get a good grip on the padlock holder.

Order #	Item #	Catalog Price
360-0635	RPD-10	**$198.00**

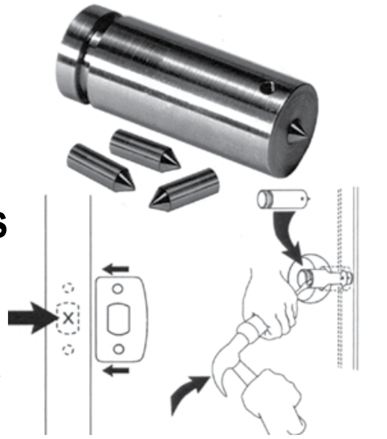

SPD-10:
Square Padlock Defeaters

The Square Padlock Defeater takes the guesswork out of finding the proper drill point on square or rectangular hard-body type padlocks. Bypass the trap door and drill the shear line in the cylinder without the drill bit walking around the face of the plug. Alternatively, this tool enables you to effortlessly push the security nut through the trap door to easily remove the cylinder. The leverage handle allows you to get a good grip on the padlock holder. The Square Padlock Defeater comes with a set of removable shims to fit the most popular size padlocks.

360-0640	SPD-10	**$198.00**

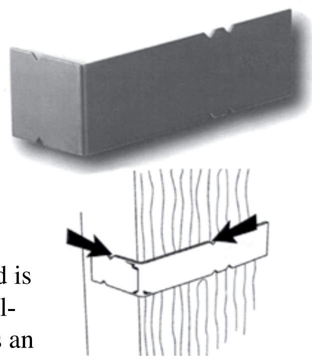

SSM-36: Sturdy Strike Markers

The Sturdy Strike Marker easily marks strike location on wood and steel jambs. It features durable solid steel construction with replaceable hardened steel tips.

Order #	Item #	Catalog Price
360-0625	SSM-36	**$119.98**

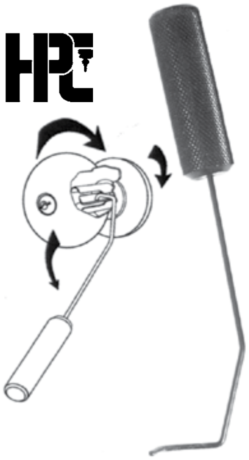

EBM-234: Easy Backset Marker

The Easy Backset Marker marks backset location for 2 3/4” and 2 3/8” backset. It includes edge boremarks and is quick and easy to use! Installing locksets and deadbolts is an everyday occurrence. This new tool makes it easy to accurately mark the backset on the door when a jig is not available.

Order #	Item #	Catalog Price
360-0620	EBM-234	**$12.20**

FSR-T100: F Series Remover

The design of the F series cylinder can make it difficult to pick. The F Series Manipulation Tool allows you to defeat these locksets with ease. Manipulate F Series leversets throught the existing opening in the back of the handle. Open F Series knoblocks the same way after making a small hole in the lock neck. The HPC F Series Manipulation Tool is designed so that You Only Need This One Tool to open either levers or knobs regardless of the handing of the door. It even works great around tight jambs where other tools don't fit.

Order #	Item #	Catalog Price
360-0610	FSR-T100	**$45.98**

FSR-100: P Series Remover

The F Series Plieers are designed to punch a small hole in the neck of F Series knobs so that the manipulation tool can be used to open the lock. These pliers are specifically designed to work around tight jambs like no other tool. This specially designed tool cuts a small crescent hole and pushes the metal away. After opening the lock the metal can be bend back to cover th eopening with a flat blade screwdriver.

Order #	Item #	Catalog Price
360-0615	FSR-P100	**$159.98**

The F Series Pliers are not needed for opening F-Series Leversets.

Cylinder Eater™ No. CE-6000

This drill attachment will chew up every cylinder you put in front of it! The replaceable tips allows you to instantly devour mailbox locks, knoblocks, deadbolts, IC and more, gnawing through shear lines with fool-proof accuracy.

The optional carbide bit gobbles up high-security cylinders as well. Throw away all of your cylinder jigs and open everything with just one tool! The HPC Cylinder Eater™ is a must-have for every security specialist who must bypass locked cylinders! Comes with drill attachment and 3 tips (.395, .500 and .550). Additional tips and bits coming soon for Medeco®, Kaba, Primus®, GM and more!

Ace Tools

Tubular Lock Picks

TLP-GUARD.

Stationary Guarded Locks

Designed to defeat those tubular locks equiped with dome-shaped shroud or "guard" that require a special, long shank key. It operates like the TLP-CMOD-B and is also effective on standard 7 pin locks. Aluminum handle with feeler reset lever, stainless steel barrel and spring steel feelers. With leather case and TKPD-1 decoder.

360-1417	HPC-TLP-GUARD	**$399..90**

TLP-CMOD-B.

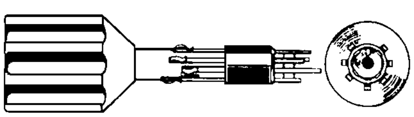

Standard 7 Pin Tubular Locks

Aluminum handle, stainless steel body and spring steel feelers. Opens most locks in seconds. Employs a collet and 0-ring. This design permits infinitely variable tension against the feelers. Most widely used tubular lock pick in the industry. In a genuine leather case with the TKPD-1 decoder.

360-0436	HPC-TLP-CMOD-B	**$173.70**

TLP-PEANUT.

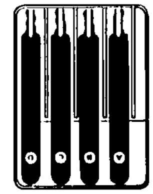

Standard 7-pin Tubular Locks

HPC's most economical tubular lock pick, yet it offers numerous features, making it a highly effective tool. The barrel is composed of Delrin which enables the wall thickness to be minimal without the brittle tendency of most metals. Also, a silicon O-ring is utilized to maintain steady feeler tension. A spring loaded center pin enables locks to virtually pick themselves. The TKPD-1 decoder included.

360-1400	HPC-TLP-PEANUT	**$98.70**

HPC Pick Sets

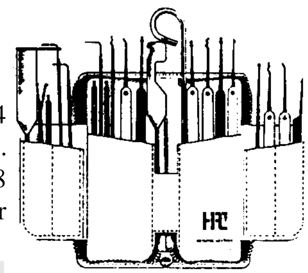

Double Sided Disc Tumbler Lock Picks

DSP-1. Set of 4 picks used on the most popular dbl. sided, disc tumbler, showcase, cam and padlocks.

Hands-Free Tension Tool Kit

Refines the Art of Lock picking

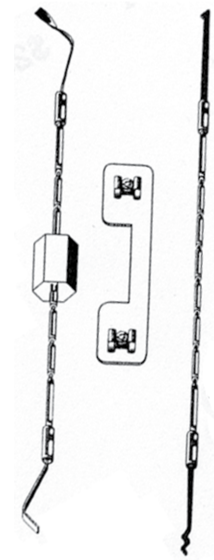

HPC's Hands-Free Tension Tool Kit takes the difficulty out of picking. No need to fumble with the tension. Simply slip the tool into your cylinder keyway (vertical or horizontal), slide and set the weight to adjust the amount of tension, and then let go! All that's left is raking the pins. Kit is complete with a Hands-Free Tension Tool and a matching 2-sided rake/diamond. The Tension and Picking tools clip together with a specially designed holder.

HPC Pistol Pick

Pick Guns

Replacement Pick Needles:

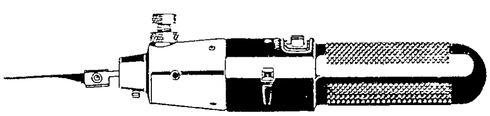

360-0269	P-3 Curved	2.80
360-0268	P-2 Straight	$2.80

Designed with the locksmith in mind Picks pin & disc tumbler with ease. All parts, including the main housing are nickel plated cold rolled steel for protection against rust, and provide an attractive high quality true pistol finish. Moving parts can easily be replaced- Pistolpick can be opened with a screw-driver. (ordered thru HPC Service Center). Comes with picks & tension tool.

360-1440	HPC HPG-10	**$69.90**

Optional Case: HPG-CASE (Black Holster)

360-1441	HPG-CASE	**$30.68**

HPC Electric Pick Guns

Cordless rechargeable Electric Pick Gun, EPG-1. Duplicate exact raking motions many times per second. Rakes open pin & disc tumbler cylinders using rapid up & down striking movement, causing tip & bottom pins to separate, meeting shear-line. Adjustable thumb-screw controls up & down motion. With charger (for bench/wall mount), 3 raking & 2 tension tools.

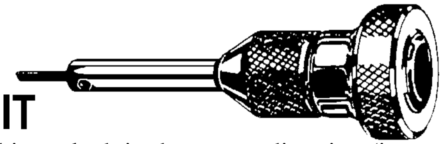

360-1439	HPC-EPG-1	**$282.00**

12-Volt Charger

This 12 volt DC charger enables the HPC Electropick to be recharged in your mobile lock shop. (Note: Electropick is sold separately.)

360-1438	HPC-EPCG-12	**$95.90**

Plug Spinners

HPC FLIP-IT

FIT-2. When picking a lock in the wrong direction (intentionally or by error) Flip-It will flip cylinder plug past upper pins and save you the job of re-picking. Two pin Quick Lock/ Release feature allows for easy release of rotating action. Sure stop feature prevents over winding in either direction. Carries HPC's new HQ (High Quality) 5 year warranty.

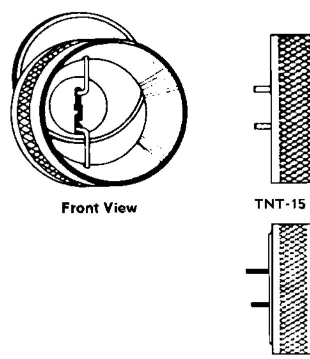

360-1465	HPC-FIT-2	**$99.90**

Pick Grip Handle

This soft foam pick grip is for picks with or without metal handles. Its unique design grips tools without any adhesive. 3/16" round, the inside diameter expands to also hold: files, wire cutters, tweezers, car openers, etc. Provides maximum pulling strength for key extractors.

360-2447	Pick Grip	**$13.30** pack of 10

TNT-20

Tension Tools

Tension wrench is improved version of TNT-15. TNT-20 incorporates spring activated tension that is utilized in the TNT-l thru 4. Also has spring-loaded ajustable tension prongs, which can be adjusted to the size of the keyway. Works well on small keyways that are flush with the shell (such as those found on padlocks & file cabinet locks), as well as standard rim & mortise cylinders. Also works with some foreign and domestic cylinders.

360-2445	HPC-TNT-20	**$93.00**

360-0451	TNT-15	Regular house cylinder	**$37.50**

Door Jak, a door installation cart that allows one worker to transport and install a heavy and/or over-size door easily, safely, and quickly.

Hardnox Door Jak

The Door Jak has been tested and improved on commercial construction sites for years. Used properly, one worker can install fire-rated, lead-lined, solid-core and commercial-grade doors* in less time, more safely and easily than two workers using conventional methods. Adjustments perfectly align the door to fit the door jamb. Using the Door Jak as instructed can save time and reduce the risk of worker injury, while increasing productivity. Collapsible for convenient storage, the Door Jak is heavy duty and powder coated.

* Up to 4'x7' x 1-3/4", 250 lbs. Additional worker should accompany larger, heavier door.

Order #	Item #	Price
367-0001	Door Jak	**$5990.00**

Who Needs a Door Jak?

- Health Care facilities
- Commercial General Contractors
- Tool Rental Companies
- Government Facilities
- Building Maintenance Crews
- Commercial Finish Carpenters
- University Maintenance Crews
- Flooring Installation Crews.

Weight: Approx. 125 lbs.
Limited one year warranty

Hardnox Door Jak 50

The sturdy, portable door installation cart.

The Door jak is the only professional door installation cart that allows one worker to safely transport and install heavy commercial and residential doors.

- Folds to 26" x 45" x 7" for storage and transport.
- Wide Wheel Base insures safe and stable use.
- Heavy Gauge Door Support Pad, with slip proof surface.
- Powder Coated. • Safety Wheel Locks.
- Door Height Adjuster, fine tunes door position within 1/64" and has a 2" overall lift.
- Attachment Strap, will not scratch pre-finished doors.
- Release Pin, moves door from a 75˚ transport angle to an upright 90˚ installation position easily.

THE DOOR DOLLY™

Door Installation Made Easy!

Hang one door or 100 doors in half the time, and move granite or 4x8 plywood by yourself. No need for an extra pair of hands.

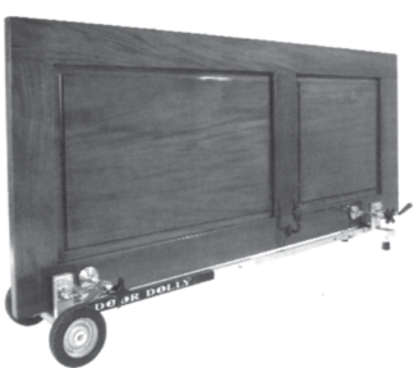

Finally a low cost device which makes transporting and installing doors easier. The Door Dolly will hold a door securely in a horizontal position while hinges are mortised and installed. Then, it allows you to swing the door up to a vertical position while hinge pins are installed on the door jamb. Afterwards, simply roll the door into place for final installation and adjustment. Heavy gauge aluminum construction and easy clamping devices protect the door from damage while holding it securely in place. Easy, quick release feature when done.

Door installation made easy.

Protective rubberized padding on clamping devices protect even the most expensive solid wood doors from damage.

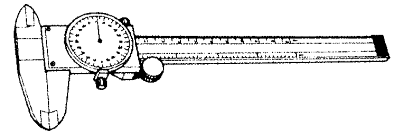

The Door Dolly handle telescopes and collapses for installation support and easy storage.

LAB

Medeco®
Pin Decoders

Decodes MEDECO® Biaxial® Pins

Identify and Sort, medeco Biaxial bottom pins according to Length, Angle & Skew

Medeco Biaxial bottom pins are designed to configure into 36 different positions. Once removed from factory packaging, it is almost impossible to accurately identify the position an individual pin represents.

Additional Features

- Accurately measures/identifies master and driver pin lengths
- Determines key cut depths
- Identifies fore and aft key cut positions

There is no other tool on the market with all of these features! Patent Pending

ANNEX®

A Superior Interchangeable Core Service Center.

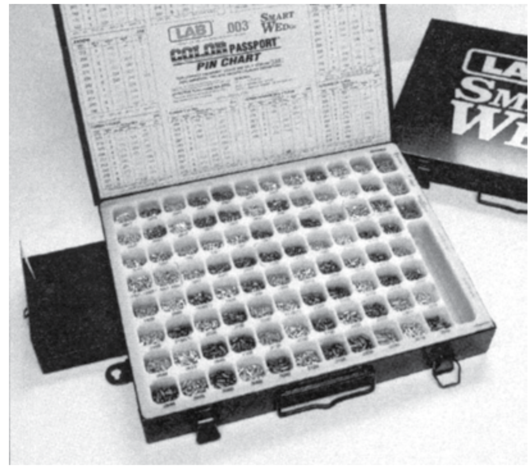

Offers the simplest method for the loading and unloading of interchangeable core pins, springs and caps, using only one instrument for both functions. A second time saving feature is a Slideout Code Book below the area where the plug or core is slid into place. This allows the user to unload the plug of pins, springs and caps into a confined area without spilling parts in or around the work area. The Slideout Code Book also can be used to retain pin stacks (combinations), allowing you to identify the control pins.

LOCKSMITH TOOLS

HIT-48 Series Carbide Tipped Hole Saws

Tired of drilling wood doors with hole saws designed for drilling steel? Tired of backing the hole saw out and cleaning the teeth? Then try the HIT-48 series hole saws designed to drill wood. The three carbide teeth will not gum or load up and are clean cutting. Hole saws can be used on your existing commercial type mandrel if the 1/4" diameter pilot bit is changed out to a longer one, see part # HIT-48-300, or just use with our mandrel.

**THESE HOLE SAWS ARE FOR WOOD ONLY!
NOT FOR USE ON STEEL.**

HIT-48-100

Three tooth 1" diameter carbide tipped hole saw designed for wood and fiberglass doors. Requires a mandrel with a longer than normal pilot bit. Use mandrel # HIT-48-310.

Order #	Item #	Catalog Price
527-0320	HIT-48-100	**$22.50**

Flexible but tensile strength prevents creasing when shimming lock cylinder. Rustproof stainless steel, curved to confrom to shape of lock plugs. 25/pk

245-0028	SS-25	$8.50

A Combination Tool

SCT-3 Plug Followers

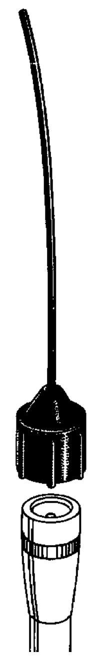

Combines a plug follower with a master wafer removing feature and a pin depressor.

Follower can be used on most cylinders with standard diameter plugs. Especially suited to be used on Schlage cylinders or any cylinder using a cylinder cap retained with a spring loaded pin. Simply depress the pin, remove the cap, turn the tool around and use as a standard follower. As an added feature, the pin depressor may be removed allowing the use of both ends of the follower when loading cylinder springs. Special grooves machined in the follower will also allow it to be used on Sargent 8 line cylinders and Almont Padlocks.

SPECIALTY Installation Tools

Every Installation is a Self-Portrait of the PersonWho Did It. Autograph Your Work with Excellence.

For New Installation or to Redrill Misaligned Cylinder Holes!

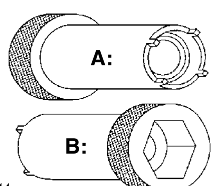

Mortise Cylinder Tool

Until now, installing a mortise cylinder in the proper location was a hit or miss proposition. The HIT-22, it will always be in the right spot. Simply mark where the cylinder should go on the door and drill a 1/2" hole. Place the HIT-22 in the lock like a mortise cylinder, tighten the mounting screw and install the lock in the door. You will see the guide through the 1/2" hole in the door. Insert a 1-1/4" hole saw in the guide and drill the cylinder hole. A perfect installation or redrill every time. Includes two drill guides, hole saw pilot and extractor handle.

Order #	Item #	Price
527-0175	MAJ HIT-22	$78.00

MULTI-PURPOSE NUT DRIVER

Compantion tool to HIT-1. Provides better grip & control when tightening the locking nut on the inside sleeve, than the plastic tool provided by the manufacturer.
Machined Aluminum.

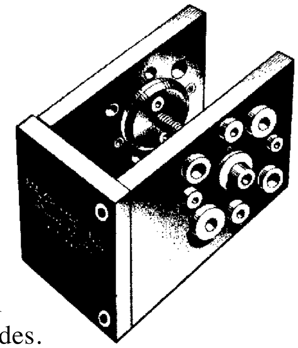

Order #	Item #	Price
527-0002	HIT-2	$55.00

A: This end for Schlage Rhodes

B: This end for Assa Brooklyn, Arrow Sierra, Sargent LN.

Used to retrofit wooden and metal doors to accept cylindrical lever locks by Assa, Arrow, Sargent, Schlage, Corbin, Russwin & More!

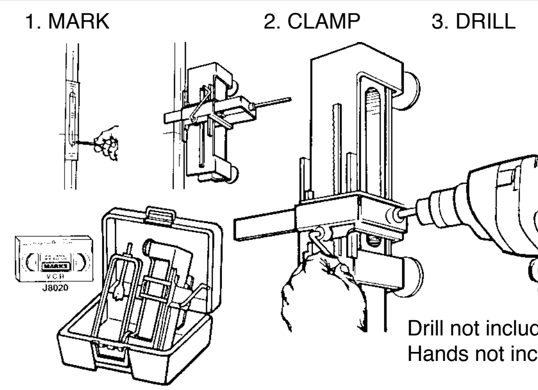

INSTALLATION GUIDE/ TEMPLATE

An all-around tool for ADA mandated retrofits.

Fits 1-3/8" to 2" doors with a standard 2-3/4" backset. Machined from 6061 aluminum with hardened steel drill guides. Throughbolts can be drilled in one easy step because HIT's backplate protects the door from splintering.
Jig attaches to the door and permits easy location of all drill points; the throughbolt holes and anchor plate lugs can then be quickly and accurately drilled, sparing the usual laborious measuring and recalculating of hole locations.

Order #	Item #	Price
527-0001	MAJ-HIT-111	$389.50

Drill not included.
Hands not included.

SPEED MORTISER

Mortise Lock Installation Tool

Prepares required mortise cavity using a series of drilled plunge cuts followed by several up and down cleanup passes with the drill bit. Fully adjustable for mortise height. Designed to self center on 1-3/8" and 1-3/4" doors. Shipped in a plastic carrying case with a 1" bit standard. Requires a 1/4" or larger electric drill. • Simplifies mortise lock installation.

- Professionally prepares mortise cavity.
  - Adjustable for any mortise lock.
  - Mortise depth can be adjusted.
  - Portable.

PRO-LOK

Padlock Drill Jigs

1. Clamp Padlock Drill Jig around the padlock. The exact 'X' alignment depth is specified on a chart that comes with the unit.
2. Drill on the centerline of the lock edge at 'X' (dimension listed on the chart).
3. The drilled hole is then tapped to 8-32. A brass or aluminum screw is inserted with Loctite™, cut off and filed smooth. The padlock is now ready for reinsertion of the serviced cylinder.

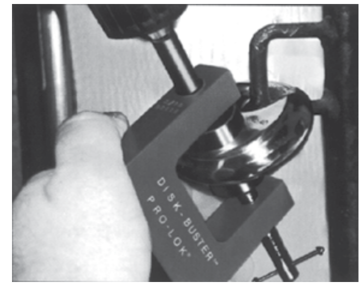

Padlock Drill Jig Guide

Used with the LT612.

1. Prior to clamping the jig in place, the face of the hardened oval nut is ground with a small abrasive wheel, ball or disc, breaking through the case-hardening.
2. Clamp Padlock Drill Jig around padlock and tighten vise to secure. Next, the drill guide is aligned until it is centered on oval nut, then it is tightened, locking it in place.
3. Drill out nut center post permitting you to open, remove, and service cylinder. Reuse lock by replacing nut.

Did you ever try to drill open a padlock while holding it steady with your other hand? Did it hurt?

Disk Buster

Disk Buster™ is a drilling fixture for various brands & models of standard diameter disk-style padlocks. Small pin size and close proximity of the spacing increments makes disk-style padlocks difficult to pick or impression.

PRO-LOK Disk Padlock Drill makes this task easy.

1. **Position the Disk Buster**. Clamp the padlock so that the cylinder area is centered inside the alignment cup. This centers shear line.
2. **Drill the Shear Line**. Grip vise, holding whole assembly steady. Use your drill bit with the supplied stop collar and drill the plug.
3. **Turn the Plug**. After cylinder has been drilled, simply remove Disk Buster, turn the plug with a small pocket screwdriver. This draws the shackle into the body.

Books & Manuals

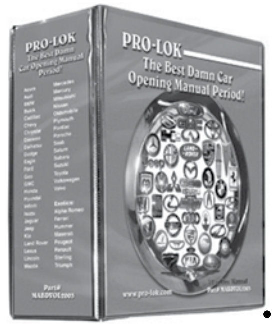

PRO-LOK

Over 15 years of research, PRO-LOK introduces the New Car Opening Volume: MABDVOL2006

Easy to Find Manufacturer. Each manufacturer is a different color tab. For example, the Acura section is red, Audi is blue... etc.

Easy Page Numbering Format. Each model is together, consecutively. This set up is so easy a table of contents is not necessary. For example: Mustang page 01 covers 1965-93 Mustang page 02 covers 1994-97 Mustang page 03 covers 1998-to current, if changed, page 04 will show the new opening method.

Easy to Update.
Alternate Methods. You don't have the right tool? Are you having trouble opening the car? At the bottom of each page there is an alternate opening method or tool if one is available.

- 3 Ring Binder.
- Entire Book in Full Color.
- High Quality Gloss Paper.
- Cross Reference Index.
- Tool Index.
- Over 700 Pages.
- Over 450 Models.
- Over 40 Manufacturers.
- Over 400 Alternate Methods.
- Over 2200 Full Color Photos.
- Over 200 Full Color Illustrations.
- Covers 1980 - 2006
